heel

1. Stand up

- Take off your shoes
 - Position your right heel firmly on heel line
- ### 2. Measure the length of your feet
- Keep your socks snug but not restrictive against your toes
 - Press your toes flat against base of sizer
 - Look straight down over longest toe
 - See the line that it touches for your shoe size

3. Measure the width

- Keep your heel on heel line
- Align your right foot's left side to sizer's left side
- Determine where this foot's right edge falls
- Choose your width by the letters in the gray shaded area. ("D" is generally a medium or standard width for Kids.)

***Remember to measure both feet!**
