## KOHL'S CORPORATION REPORTS MAY COMPARABLE STORE SALES INCREASE OF 10.5 PERCENT

MENOMONEE FALLS, Wis., June 7, 2007 — Kohl's Corporation (NYSE: KSS) reported today that sales for the four-week period ended June 2, 2007 increased 18.5 percent over the four-week period ended May 27, 2006. On a comparable store basis, sales increased 10.5 percent.

Larry Montgomery, Kohl's chairman and chief executive officer, commented, "May results were driven by broad-based strength in all of our apparel businesses, footwear and home. We continued our consistent performance as we achieved positive comparable sales increases in all regions."

May's results were affected by a calendar shift of Memorial Day into fiscal May from fiscal June. As a result, the Company expects a decrease in June comparable store sales in the low-single digit range, implying a combined May/June comparable sales increase of 3% to 4%.
